

## ***NATIONAL FOOT HEALTH MONTH***

With the beautiful flowers in bloom it is time to start thinking about your feet and what better time to do so than National Foot Health Month.

Many of us don't give the time and care that our feet deserve but remember, without them, where would you be? Maintaining good foot health is imperative for lifelong wellbeing and mobility, which is a key determinant to overall quality of living.

**Call our office today to book complimentary initial orthotic visit for yourself, family member or friend.**

**\*must book an appointment during the month of May**
